

MINOR IN STATISTICS AND DATA SCIENCE

Statistics, the science of making inferences and decisions under uncertainty, is becoming increasingly relevant in the modern world due to the widespread availability of and access to unprecedented amounts of data and computational resources. Unlike classical statistics, the need to process and manage massive amounts of data has become a key feature of modern statistics. This aspect of managing and processing data is popularly referred to as “data science.”

Through seven required subjects, the Minor in Statistics and Data Science provides students with a working knowledge base in statistics, probability, and computation, along with an ability to perform data analysis.

Foundation 1

Select one of the following: 12

6.9080	Introduction to EECS via Robotics
6.100A & 6.100B	Introduction to Computer Science Programming in Python and Introduction to Computational Thinking and Data Science

Foundation 2

Select one of the following: 12

2.087	Engineering Mathematics: Linear Algebra and ODEs
18.03	Differential Equations
18.06	Linear Algebra

Statistics 1

Select one of the following: ¹ 12

1.010	Probability and Causal Inference
6.3700	Introduction to Probability
9.07	Statistics for Brain and Cognitive Science
14.30	Introduction to Statistical Methods in Economics
15.069	Applied Probability and Statistics
16.09	Statistics and Probability
18.600	Probability and Random Variables

Statistics 2

Select one of the following: 12

14.32	Econometric Data Science
15.075[J]	Statistical Thinking and Data Analysis
18.650[J]	Fundamentals of Statistics

Computation & Data Analysis

Select two of the following: 24

1.00	Engineering Computation and Data Science
2.086	Numerical Computation for Mechanical Engineers
6.3800	Introduction to Inference
6.3900	Introduction to Machine Learning
6.8301	Advances in Computer Vision
6.8711[J]	Computational Systems Biology: Deep Learning in the Life Sciences
14.36	Advanced Econometrics
15.053	Optimization Methods in Business Analytics
16.90	Computational Modeling and Data Analysis in Aerospace Engineering ²
18.065	Matrix Methods in Data Analysis, Signal Processing, and Machine Learning
18.642	Topics in Mathematics with Applications in Finance ²

Capstone Subject

IDS.012[J]	Statistics, Computation and Applications	12
------------	--	----

Total Units **84**

¹ Consult minor advisor about potential substitutions.

² Subject has prerequisites that are outside of the program.

A minimum of four subjects taken for the Statistics and Data Science Minor cannot also count toward a major or another minor.

See the Statistics and Data Science Minor webpage (<https://stat.mit.edu/academics/minor-in-statistics>) for additional information. Inquiries about the undergraduate program may be directed to the IDSS Academic Office (idss_academic_office@mit.edu).
