

PROGRAM IN MEDIA ARTS AND SCIENCES

The Program in Media Arts and Sciences (MAS) focuses on the invention, study, and creative use of new technologies that change how we express ourselves, how we communicate with each other, how we learn, and how we perceive and interact with the world. The field draws on a number of other disciplines, including computer science, cognitive sciences, communications, design, and the expressive arts. The program offers undergraduate and graduate subjects and a graduate program leading to master's and doctoral degrees. Its academic programs are intimately linked with the research programs of the Media Lab.
